Abstract of JP7315502

PURPOSE: To easily take a bag, into which waste matter like dust has been dumped, out of a waste container and dump the dust as it is contained in the bag. CONSTITUTION: A plurality of bag bodies 2, each upper part of which is open, are piled up in a state of nest of boxes, and the upper open edge parts of the bag bodies 2 are folded toward the outside. Then, the bag bodies 2 are placed in the opening of a dust box 4. An opening 6 is formed in each folded edge part of the each bag bodies 2, while an engaging part 12 of an engaging device 8 is engaged with the opening 6 in such a manner that the baggy object 2 can be taken out in order from the innermost bag body 2.
